Bross Group is a premier IT Consulting and Staffing firm headquartered in Lakewood, CO. We specialize in assisting our clients in the identification of the best IT professionals for their consulting, staff augmentation, direct placement, and application development needs. With over 20 years experience in the IT Consulting industry, we are set apart by our commitment to the success of our clients and goal of making the candidate experience a positive one.

- Work with IT and business owners to understand business requirements and strategy related to the various business departments in order to design and build solutions for that department.
- Design and build all aspects of a solution based on the Microsoft .NET platform using best practices and common patterns, including database, component layers, user interfaces, web services and design patterns.
- Drive development of those solutions by guiding and mentoring the development team through the entire development process.
- Document solution designs and how they interact with the large enterprise architecture.
- Become the trusted technical advisor for applications, providing thought leadership and application of technology to business problems.
- Participate in the development of IT Long Range Plans, Design Documents, Standards and Technology Strategy.
- Review, proposing and initiating evolution of components of NCM's technical architecture in support of overall data architecture.
- Communicate with the business community in a professional manner.
- Generate daily, weekly and monthly reports regarding assigned projects to appropriate managers and stakeholders.
- Assist in the day-to-day operations of the Information Technology Department.

Qualifications:

- Bachelor's degree in Computer Science or equivalent experience.
- Deep experience developing enterprise solutions using all aspects of the .NET platform: C#, ASP.NET, Silverlight, Javascript, ADO.NET, XML, Microsoft Application Blocks, web services, multi-threaded programming, designing and building frameworks, enterprise patterns, SOA, VSS, SQL 2005/2008 database design and development, T-SQL, development tools (VS.NET 2008), SQL Reporting Services, Team Foundation Server, experience with moving information throughout an enterprise using service oriented approaches.
- Minimum 2 – 4 years experience paired with strong virtual teaming abilities.
- Strong commitment to customer service.
- Outstanding negotiation, organizational, creative, presentation, written and verbal communication skills.
- Professional attitude and work habits.
