

## **NETWORK ENGINEER\_9001**

Location: DTC

**Send resumes to:** [rpatel@brossgroup.com](mailto:rpatel@brossgroup.com)

Bross Group is a premier IT Consulting and Staffing firm headquartered in Lakewood, CO. We specialize in assisting our clients in the identification of the best IT professionals for their consulting, staff augmentation, direct placement, and application development needs. With over 20 years experience in the IT Consulting industry, we are set apart by our commitment to the success of our clients and goal of making the candidate experience a positive one.

Our client is currently seeking a Network Engineer with 4-7 years experience working design, protocol and application for networks.

- Works with network engineering and other teams to design operationally efficient and supportable data networks for internal and external organizations
- Maintains and operates network operations tools such as SNMP monitoring systems, configuration management systems, DNS, protocol analyzers, etc.
- Works with internal and external teams to troubleshoot and resolve complex network issues using appropriate tools and ticketing systems.
- Determines and documents internal data network systems
- Establishes and maintains network performance objectives.
- Works nights and weekends as necessary to perform maintenance activities and on-call network outage trouble-shooting
- Trains other groups as necessary on networking basics
- Complies with all established procedures and policies of the CMC.
- Other network operations functions that may be assigned

### **Qualifications**

- Network Engineer with 4-7 years experience
- Hands-on experience in the engineering and operation of large scale data networks
- Hands-on experience with F5 BigIP LTM systems and iRules
- Thorough understanding of IP networking and related protocols
- Video over IP experience, especially Source Specific Multicast
- Ability to easily interact and assist other technical and non-technical teams at the appropriate technical

### **Desired Qualifications**

- Information security experience (cisco pix FW, Checkpoint FW)
- CCNA, CCNP, or CCSP a definite plus
